NEW ERA
Newmarket, Friday September 24, 1858.

General Summary.

—A report of the Lloydton tea party has been unavoidably crowded out; also, of the Soiree at Holland Landing, which took place yesterday.

—The By-Laws of this Village are now printed; and every rate-payer, we are informed, may obtain a copy on application to the Council next Monday evening.

—It is with pleasure and satisfaction we record the fact, that our worthy member of Parliament, Joseph Hartman, Esq., is rapidly recovering from his long and serious illness. We hope he may long be spared to occupy a position of usefulness amongst us.

—A short time since some person or persons entered the room of our townsmen, Mr. Hartman, and abstracted \$36 from his till, making good his retreat. Circumstances conspire to point out the guilty; but no definite information has, as yet, been obtained.

—By reference to the Premium List published elsewhere to-day, it will be seen the Riding Agricultural Society propose offering a premium of \$10 to the Best Band. We understand there are five organized bands within the limits of the Society. Come one; come all.

—The third and final game of cricket, between the Newmarket and Aurora Clubs, was played on the ground of the latter, on Wednesday last, the 22nd instant, and resulted in favor of Newmarket Club by 32 runs. Dinner was served at 2 p.m., at Mr. McLeod's Hotel, and a capital one it was.

—In our issue of the 17th instant, we published a birth, announcing the wife of Davis McCarty, of a son, which appears to have been a hoax. The parties have not lived together for number of years, and not the slightest stain has ever been cast upon the character of Mrs. McCarty—being a woman both honoured and respected. From communication received this week, although too late for publication, from the lady referred to, we fear not so much can be said for the man. However, the letter containing the notice of the 17th instant, was mailed at Keswick to us, and all we can now do is to contradict the statement.

Microscopic View of the Aurora Sun.

The Aurora Sun continues his Bilinggate and slang, week after week, against the Era, venting his spleen and exhausting his low and vulgar vocabulary, because, forsooth, we took the liberty to expose the base deception he had practiced upon the good people of Aurora. Does he deny we spoke the truth? Not a word of it; but replies in coarse, filthy, language and vile epithets, beneath the impudent fishmonger. Surely the man must place a very low estimate upon the character and moral virtue of the community in which he resides, or he would not be guilty of prostituting the columns of the journal he professes to conduct in the manner he does. While noticing one of his celebrated productions, a couple of weeks ago, we charged him with being guilty of fabricating a gross falsehood. Does he deny the charge, or attempt to prove his position? Not a bit of it, but regardless of truth or even common decency, makes other false insinuations and utters forth another edition of stink.

We do not care to follow, the course of this would be dictator of public opinion, by entering into personalities, or we might give a slave of his character in the west. The column of a public newspaper is not the place for such things. But the question between the scribe of the Sun and ourselves, is—has he fulfilled his agreement with his patrons at Aurora? Has he fulfilled what he promised in his prospectus? Every issue of the paper, furnishes an answer in the negative. We hesitate not to say, the whole thing is a burlesque, put up with a view to increase the circulation of the Leader, and disseminate the political views of designing demagogues—the Editor of the Sun playing blind. Circumstances have come to our knowledge, and the language made use of by the Editor to several gentlemen of Aurora, strengthens this supposition. Any man, ready to offer his political wares upon the altar of iniquity—ready to sell himself to the highest bidder, is unworthy the confidence of the community, and should be reprobated by every honest citizen and well-wisher of good works. Let the good people of Aurora beware—and ever remember, the old adage of the reptile, warned to life, and then bit the hand that preserved it.

This week he charges us with having violated our agreement with his patrons or us his constituents. This statement, we presume, is offered by way of palliation for his deception practiced on the people of Aurora; but this we deny and challenge the proof. And even if we had done so,—two wrongs never make a thing right. He has used initials and dates; let him give the name and we will take the trouble to have the man speak for himself. We have conducted a public business between five and six years, and attained a position the Sun man need never aspire to,—and therefore can well afford to laugh at the pride of attempting a man, so low in public estimation in a few short weeks, as to be publicly denounced by his fellow citizens. He tries to make a boast of his loyalty, too,—and tries to make a boast of being an Orangeman; but we can tell him he would be sorry to be con-

nected with any Lodge that would tolerate a man capable of using the language published a couple of weeks ago in his paper; but we are glad to state, that orangemen, good and true, of more Lodges than one, have denounced his conduct as low and vulgar in the extreme.

Good Templars—Pine Orchard.

As we intimated last week, the Good Templars of Pine Orchard Lodge, held a temperance demonstration in Mr. Dillman's woods, 4th Concession of Whitechurch, on the 10th inst. Upwards of 400 people were present on the occasion. After the company had partaken of the very excellent refreshments—of which there was an abundance, and to spare—Mr. John Terry, of Sharon, was called to the Chair.

An appropriate prayer was then offered by the Rev. Mr. Anderson.

The Chairman then made a few remarks, facetiously describing the speakers as so many strings to be played upon the temperance tune (Laughter). He also referred to the demoralizing effects of intemperance, and the salutary influence exercised by the various organizations established for the amelioration of the condition of men.

Newmarket Band—Medley.

Rev. Mr. Anderson was the first speaker, who, after a few introductory remarks, said he was honestly a Son of Temperance and a Good Templar, and rejoiced to see the success attending these two kindred organizations; but if Canada ever expected to have a Maine Law, the people must exert themselves at the polls and return honest and faithful supporters of that law from principle. The Rev. gentlemen then directed his discourse chiefly to the young men and women present, urging the necessity of preparing themselves for usefulness in their day and generation. And by way of encouragement, he instanced many noted persons who had grown up to eminence and power from humble walks in life. Their actions must be in perfect harmony with the principles they advocated, otherwise it would be impossible to rise above mediocrity. The Rev. gentleman continued his remarks for some time, and was listened to with marked respect.

Sharon Band—Quickstep.

Mr. Jas. Silver was the next speaker, and his remarks were well received. He said he was glad to be able to testify that he was a brand plucked from the burning; he now rejoiced that he was on the road to happiness and life. He had been what was termed a drunkard; and often times while reflecting upon the position he then occupied, he considered it really a miracle that he had not filled a drunkard's grave. People should consider their duty to themselves and to the community; but the drunkard was very often incapable of doing so. Mr. Silver spoke at some length—giving the audience passages in his own individual experience, and concluded by urging the assembly to adopt the principles of total abstinence.

Sharon Band—Foreword to Whiskey.

Elder Fowler next addressed the audience, and commenced by referring to great and particular events in the history of the world, and amongst others instanced the temperance cause—which it had done to elevate the masses and lessen the drinking usages of society. He also urged the importance of electing temperance men to Parliament and Municipal Councils, who would bring to bear the strong arm of the law to suppress the growing evils of intemperance. His remarks were very practical.

Votes of thanks were then given to the Bands, and to the ladies who had provided the refreshments, and the party broke up, all well satisfied with the proceedings of the day.

Electoral Ag. Society.

The above society held their semi-annual meeting on Monday last; but nothing of particular interest transpired.

At the close of the General Meeting, the Directors of the society held a session, and during the afternoon prepared a Prize List for the forthcoming show. Also, made a temporary change in the Constitution, so as to allow persons not members, to compete for prizes by paying \$2 entrance fee. The change, however, is understood to continue only for the present year, unless confirmed at the next annual meeting in January.

The Electoral exhibition will take place in Newmarket, on the 15th of October. For particulars, see Advertisement. Ladies will be allowed to compete in the discretionary class, free.

Newmarket Council.

Last Monday evening, our Town Fathers found nothing to do, and after consulting the minutes of a previous meeting, and receiving a communication from the Town Clerk of Whitechurch, furnishing the names and amount of property liable for school assessment in that Township, adjourned till next Monday evening.

Attention was called to the road requiring some repairs on the Town Line, when the Chairman of the Road and Bridge Committee stated it would be attended to immediately.

Correspondence.

We wish to be distinctly understood that we are not responsible for the opinions of our correspondents.

To the Editor of the New Era.

Sir.—In your issue of the 10th inst I had the Roman Catholic Priest, the Rev. C. Wardy, done me the honor of bringing me before the public. My remarks at a late public meeting have been taken exception to, especially where I am reported to have said I had made theology my study. The indignation of the Rev. gentleman is aroused at the presumption of a lay man thinking for himself, and especially to think upon a subject, in his opinion, alone reserved for those that would be thought the shepherd of the flock of Christ. I must own I have looked into that word which alone he is the most afraid of, and from that stand point I have viewed those systems that have arrogated to themselves the destinies of the world. I have also to confess I have made myself sufficiently acquainted with theology to be somewhat posted up in dogmas and subtleties of the church of Rome, but I cannot deny that that institution has done more to lower mankind than all other institutions have done to rise and elevate. The fact is, wherever we find Rome having full control, we find just in accordance to the influence brought to bear is the injury done. We might suppose that the nearer we approximate to infidelity itself we would there find man enjoying all those blessings that is calculated to raise him, but it is not so here. Is it not obvious to every person that with all their pretensions, Rome has ever laboured to keep her children in ignorance, and carry out her teaching, namely, a "Protestant," "Dr. Hunter" and "Inocula." I say to the two anonymous champions the Catholics have a natural right to establish a school of their own, as well as any other denomination in the world. The establishment of the Rev. C. Separate Schools has been recognized by the

We might suppose that the nearer we approximate to infidelity itself we would there find man enjoying all those blessings that is calculated to raise him, but it is not so here. Is it not obvious to every person that with all their pretensions, Rome has ever laboured to keep her children in ignorance, and carry out her teaching, namely, a "Protestant," "Dr. Hunter" and "Inocula." I say to the two anonymous champions the Catholics have a natural right to establish a school of their own, as well as any other denomination in the world. The establishment of the Rev. C. Separate Schools has been recognized by the

Editor of the New Era.

Sir.—In your issue of the 10th inst I had the Roman Catholic Priest, the Rev. C. Wardy, done me the honor of bringing me before the public. My remarks at a late public meeting have been taken exception to, especially where I am reported to have said I had made theology my study. The indignation of the Rev. gentleman is aroused at the presumption of a lay man thinking for himself, and especially to think upon a subject, in his opinion, alone reserved for those that would be thought the shepherd of the flock of Christ. I must own I have looked into that word which alone he is the most afraid of, and from that stand point I have viewed those systems that have arrogated to themselves the destinies of the world. I have also to confess I have made myself sufficiently acquainted with theology to be somewhat posted up in dogmas and subtleties of the church of Rome, but I cannot deny that that institution has done more to lower mankind than all other institutions have done to rise and elevate. The fact is, wherever we find Rome having full control, we find just in accordance to the influence brought to bear is the injury done. Questions Answered.

The Nebraska Post, under the above caption goes thus—
A few days since we received a letter from a friend at the east, making inquiries in regard to our territory, from which we clip the following questions and append the answers:

We have been in Nebraska but a short time, and our knowledge being somewhat limited we hope due allowance will be made for any mistakes.

What kind of a country do you live in?

Mixed and extensive. It is made up principally of land and water.

What kind of weather?

Long spells of weather are frequent. Our sunshine comes off principally during the daytime.

Have you plenty of water and how got it?

A good deal of water about and generally got in galls and whiskey.

Is it hard?

Rather so, when you have to go half a mile and wade in mud knee deep to get at it.

What kind of buildings?

Allegoric, Ionic, Anti-Corinthian, Log and Slabs. The buildings are chiefly out doors, and so low between joints that the chimneys all stick out through the roof.

What kind of society?

Good, bad, hateful, indifferent and mixed.

Any Aristocracy?

Nary one.

What do you people do for a living most'y?

Some work, some laze around, one's a shrewd business manager, and several drink whiskey.

Is it cheap living there?

Only five cents a glass and the water thrown in.

Any taste for music?

Strong, Buzz and buck-saws in the daytime, and wolf-hunting and cat-fighting, nights.

Any pianos there?

No; but we have several cow bells, and every family has a tin pan.

Any manufacturers?

Every household. All our children are home producers.

What could a gentle family in moderate circumstances do for a living?

Work, slave notes, fish, hunt, steal, or if hard pinched, buy and sell town property.

Some know everything that happens, and some things that do not?

Would they appreciate a well bred family of sons and daughters?

Certainly. Great on blood stock; would take them to the next territory and exhibit them.

Dear friend, your questions are answered. Bring on your well bred stock and make your home with us!

What do you think?—A young buck of the soap-buck order, who wore an unshaven face because he said, it looked foreign, lately accosted a Yank on as follows:

"I say fellow, some individuals think I am a Frenchman, and some take me for Etal-

yan—now what do you think I am?"

I think you're a durned fool!" replied Jonathan.

Further by the Vanderbilt.

A MOST SCIENTIFIC INVENTION.

An instrument for the cure of general Debility, or more properly known as Seminal Debility,

Nervous Debility, and the various forms

of Pneumonia, both mental and physical,

arising from youthful excesses, infection,

the effects of climate, &c.; remarks on

the use of the Microscope, and the questionable

treatment advocated by certain writers; fol-

lowed by practical observation on Malaria, plain

directions for the prevention and removal of

certain disqualifications, rules for self-treat-

ment, &c.

TAKE PARTICULAR NOTICE.

Dr. Amos & Son, in order to satisfy the most

skeptical as to the merits of this instrument,

pledge themselves that in any instance where

they may prove unsatisfactory after a fair trial,

the money will be refunded by returning the

instrument in good order.

Persons wishing the above useful instrument

will observe that the price, with the accompa-

nating directions, securely packed, and sent

by express, is ten dollars.

NEW REMEDIES & QUICK CURES.

Dr. Amos & Son are the only Physicians in

the State who are members of the Royal Col-

lege of Surgeons, London, graduates of one of

the most eminent Colleges in the United States.

May be consulted from eight o'clock in the

morning until nine at night in every stage and

symptom of the Venereal Disease. The treat-

ment they adopt is the result of upwards of thirty

years' extensive and successful practice in Lon-

don. The most inveterate cases of Venereal

Diseases eradicated in eight or nine days, and

cases of a slight nature in two or three days, at

a moderate expense.

The cure effected without confinement or hindrance from business; also, nodes, and pains in the bones and limbs, effectively eradicated.

PERSONS IN ANY PART OF THE WORLD, may

successfully treat by forwarding a correct

detail of their case, with a remittance for medi-

cines, which will be returned with the utmost

dispatch, and secure from observation.

Letters for advice must contain a fee of \$1.

Patients wishing for Medicines will be charged according to the nature of their Com-

plaints.
